

PERI South Africa Material Handling Training for Customers

Register For Training and Master The Art of Material Handling

Why Register?

Maximize Savings:

Learn how to avoid charges for dirty, damaged, and scrap materials.

Boost Efficiency

Enhance the lifetime of your PERI products and improve site efficiency

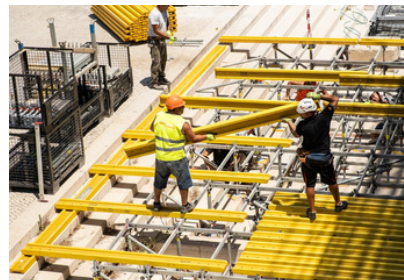

Reduce Downtime

Decrease waiting time in PERI yards and minimize job site closures.

Training Highlights:

- **Standard Delivery Procedures:** Understand our packaging policies and how to safely handle and quantify materials.
- **On-Site Handling Rules:** Master the correct techniques for using, storing, and maintaining materials on-site.
- **Safety First:** Equip yourself with the best practices for safe manual handling, using the right equipment and protective gear.

Save time and money with quick turnaround and safe unloading processes.

Achieve your project goals efficiently with the support of our expert team

Protect your investment by following PERI's standard handling and storage practices.

To register , please contact your responsible PERI / Sales Engineer or branch.
